Aesop's Park Vegetable Garden Agreement Guidelines

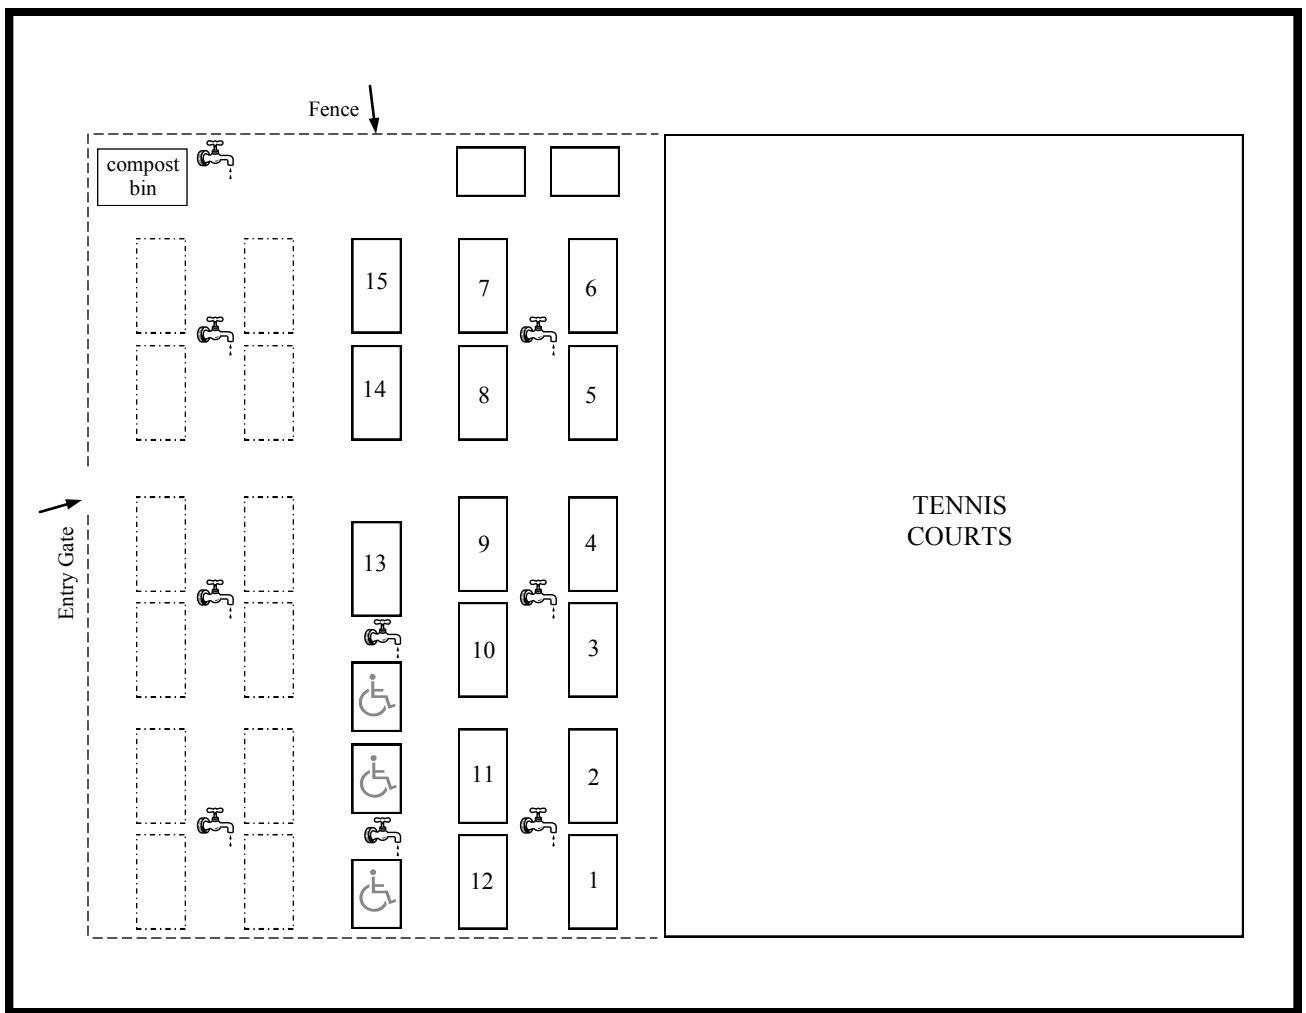

The City of Tavares offers its residents the opportunity to lease an individually delineated vegetable garden plot located at Aesop's Park. Each garden plot will be 4' x 12' with irrigation and compost materials on-site. There will be three (3) wheelchair accessible garden plots measuring 4' x 8' reserved for residents needing assistance. A non-refundable lease fee of \$20 per year will be charged to each city resident wishing to participate in the garden program. Fees must be paid at the time of registration, and plots will be assigned on a first-come, first-served basis. If there are no vegetable garden plots available to be leased, an application with a non-refundable \$20 lease fee will add you to a waiting list. When a plot becomes available, the fee will be applied to the vegetable garden plot annual lease fee.

Each vegetable garden plot will be individually marked and sole maintenance will be the responsibility of the lessee for the period of the lease term. Each lessee is responsible for supplying their own watering hose, rakes, buckets, garden tools, etc. This is a wonderful way to get your family or a group together to teach kids about the joys of gardening and growing your own vegetables.

The following guidelines have been established for the vegetable garden:

- Each vegetable garden plot requires a non-refundable lease fee of \$20 per year.
- Plots must have weeds maintained. Plots that are not maintained properly will be given a written warning and have ten (10) days to comply. If the plot has not been cleaned up after the ten days, the lease will be voided and the fee forfeited.
- Plot holders shall not leave behind any gardening equipment.
- No chemical pesticides or herbicides will be allowed.
- Plot holders will only harvest from their own plot.
- Pets are not allowed in the vegetable garden area.
- If children are brought into the garden area, they are to be closely supervised at all times. Their parents/guardians are responsible for their behavior, as well as any damage that may be incurred.
- Illegal crops are forbidden to be grown in the vegetable garden area.
- Use of radios and cell phones must be kept to a minimum while in the garden.
- The water irrigation is to be monitored at all times.
- If using the compost materials, each lessee is encouraged to replenish the compost bin with appropriate organic materials such as vegetable peels, coffee grounds, egg shells, etc.
